Secured Flight Data

The **Secure Flight data** collection is a program of the US Transportation Security Administration (TSA) requiring airlines to report specific passenger data.

Flights to, from, within, and over the United States
All travelers flying to, from, or within the United States, as well as those flying through US airspace or making connections/stopovers in the US, must provide this information.
Additionally, the following countries are currently affected: **Canada, Mexico, Cuba, and Jamaica.**

To provide you with prompt service, we kindly ask you to enter this data for all booked flights and passengers before submitting the booking to our queue. Ticket issuance is not possible until this information has been provided.

Please find below examples for each GDS

Amadeus
Female: SRDOCS YY HK1-----30JUN73-F--JOHNSON-SIMON-PAUL/P1
Female Infant: SRDOCS YY HK1-----13APR09-FI--JOHNSON-SONIA/P1

Galileo
Male: SI.P1/SSRDOCSYYHK1/////19JAN66/M//MUSTER/KARL
Male Infant: SI.P1/SSRDOCSYYHK1/////30MAY07/MI//MUSTER/PAUL

Sabre
Male: 3DOCS/DB/12JUL66/M/ERICKSON/JAMES/HENRY-1.1
